## Phase 2: Crossmint logo. With 🌙SOLoons and 🪄comETHs!

In this second phase, you will have to build another megaverse... including the shape of our logo!

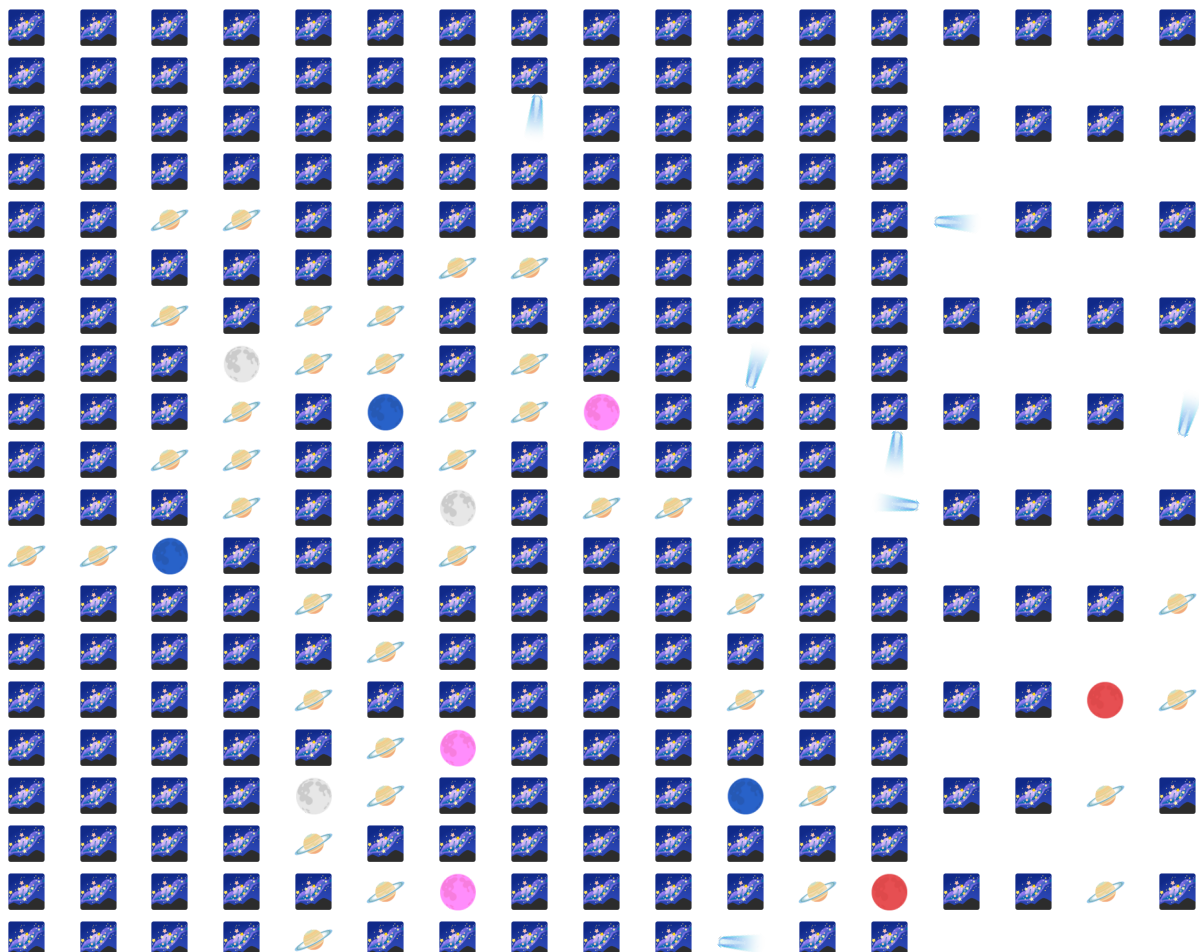

This new map has some other entities as well: 🌙SOLoons and 🪄comETHs.

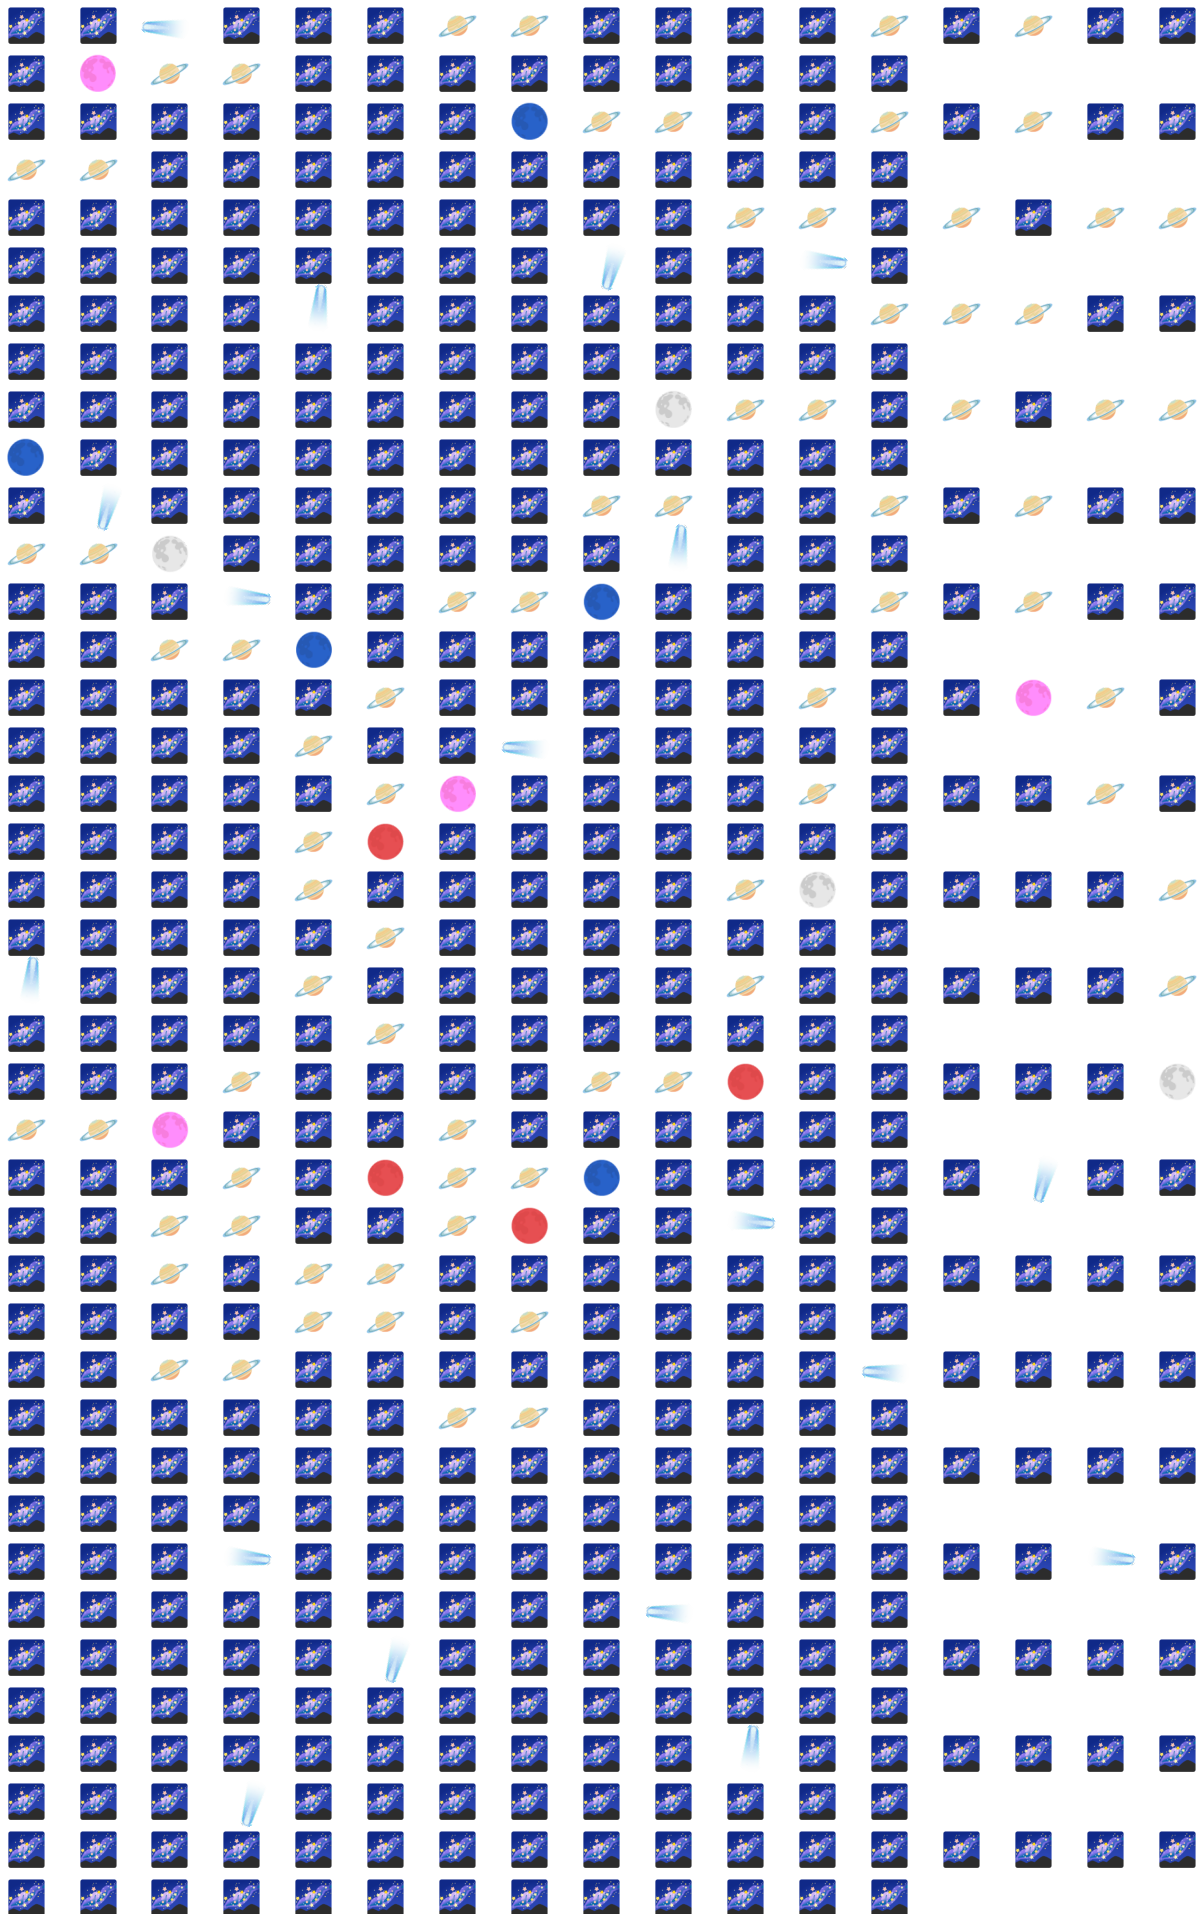

- 🌙SOLoons can only be adjacent to a 🪄POLYanet, and they can have a variety of colors.
- 🪄comETHs can go alone in the universe, but they have a direction they're facing.

You can see their specifications and APIs on the same [Docs](#).

**IMPORTANT: Building the map manually is NOT a solution we are looking for here. There are multiple ways to solve this problem, but maybe the `/api/map/[candidateId]/goal` endpoint might help.**

The final result will look like this:

See my map
